

## YOUR ORGANIZATION. HOW CAN YOU MAKE SURE YOUR MANAGEMENT INFORMATION NEEDS ARE MET?

***Phoenix NP Complete*<sup>®</sup> CAN HELP.**

For non-profit organizations and independent schools of all sizes, the need for a business management information system in today's economic and regulatory environments is as great as it has ever been. With each individual in an organization now required to do more than ever, and perform at ever-increasing levels of efficiency and effectiveness, making use of multiple spreadsheets, ad-hoc databases, text and hard-copy documents, is simply no way to manage your organization.

This is where *Phoenix NP Complete*<sup>®</sup> can help!

By integrating robust fundraising, revenue, student / client, human resources, reports, and utilities modules, organizations are now better positioned to more effectively manage a broader range of business processes from a single software platform.

And the best news of all: *Phoenix NP Complete*<sup>®</sup> is easily affordable for even the most modest of organizations!

PHOENIX NP COMPLETE®  
FREQUENTLY ASKED QUESTIONS

**Q** We are a faith-based independent school that spends many hours in January and February performing the CRA donation tax calculation. Will Phoenix NP Complete® help?

**A** Absolutely! Phoenix NP Complete® has been designed to track all students and the tuition payments made on their behalf, and automatically combines this with the necessary data from the fundraising module. By providing the system with your current taxation year expense data, and inputting your grade secular percentage ratios, Phoenix NP Complete® will automatically determine the allowable portion for CRA tax purposes, and create the donation receipts.

**Q** We are a non-profit that runs different fundraising campaigns during the year. We need to report on funds generated during specific periods and for specific campaigns. Can Phoenix NP Complete® capture and report on this data?

**A** Yes. Phoenix NP Complete® has a fully functional fundraising module, capable of tracking donations and pledges, in addition to capturing key variables such as date, fundraising program, payment method, currency and more. In addition, the reporting functions allow the user to view and print detailed reports for specific campaigns and/or during specific time periods.

**Q** We have considered databases before, but could not afford to spend the thousands of dollars to purchase those applications. How much will Phoenix NP Complete® cost?

**A** Phoenix NP Complete® has been developed with small to medium-sized organizations in mind. There is no upfront multi-thousand dollar investment required. One low monthly subscription fee is all that it takes to have access to this amazing application.

# THE SIMON PHOENIX GROUP DIFFERENCE.

## A PROVEN RECORD OF HELPING ORGANIZATIONS INTEGRATE THEIR MANAGEMENT INFORMATION NEEDS.

Many non-profit organizations today are attempting to complete more tasks and business processes than ever, with fewer administrative staff. Donors, friends, parents, and government are all expecting non-profits to focus the majority of every raised dollar to the delivery of core services. This means that fewer dollars than ever are available to meet administrative needs.

**This is why non-profits today need to maximize their efficiency and effectiveness, and this is where the Simon Phoenix Group can help!**

As publishers of Phoenix NP Complete®, a leading-edge relational database and business management tool, we can offer your organization a solid track record in professional software development, and the expertise in non-profit business management – at the executive level. By truly understanding the needs of your organization, we are in a unique position of ensuring that our software is specifically designed to achieve your goals. Realizing a greater integration of your information needs than ever before means your organization will achieve more!
